### Please tell us why

- 1) the fact that site 335 is the least sustainable of all the assessed sites (081,083,203,335 and 396).
- 2) the reasons for the recent refusal of Hallam Land's proposed scheme on the west side of Roundhill Road apply even more to site 335 than other sites in the village.
- 3) the damage that the development of site 335 would do to the village, as is recognised in the Sustainability Appraisal.
