the development undermines this policy and modifications because it is a car dependent development which will not contribute to any of the green commitment from the government. also you would be

spoiling a beautiful habitat for both people and animals. in this now Covid world we all need more open spaces both for exercise and mental health.

#### Question 5

**Please set out what changes you consider necessary to make the Plan legally compliant or sound and why, thinking about what you identified in Question 4. It will be helpful if you are able to put forward your suggested revised wording or any policy or text. Please be as precise as possible.**

council studies have shown that there would be an extra 5437 vehicles a day using the local road network in whinfield. this is ridiculous as these roads do not cope with the day to day traffic now. Barmpton Lane is a winding LANE as per its name and not a dual carriageway. This lane cannot be widened and I feel from a safety point of view this cannot be a main access for this development. it seems that darlington is just throwing up housing estates everywhere and turning our once nice town into a concrete jungle for which there is no need. even the government does not think we need all these houses so why do darlington council think we do. I do not want the countryside around Skertingham spoiling, leave it alone
